

Main page

1. Change ASU logo to the new logo
2. Change font for the entire site to Roboto, ASU's branded font for digital media
3. Change the bottom date to 2017

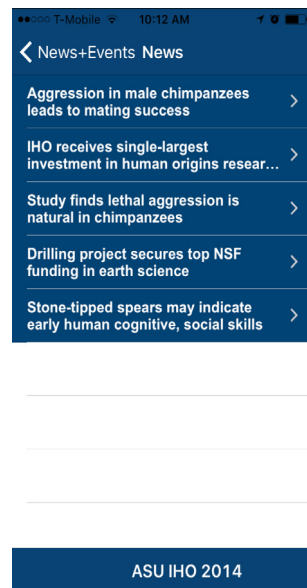

For all sections, let me know:

1. optimal pixel size for the images
2. how many characters/words I should write the text for if there is a limit

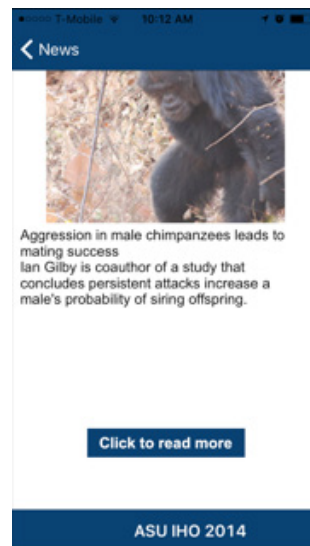

News + Events

1. For all pages: Change date to 2017 at bottom
2. Center the ASU IHO 2017 at the bottom (the last update for this, the programmer couldn't figure out what was wrong)

News:

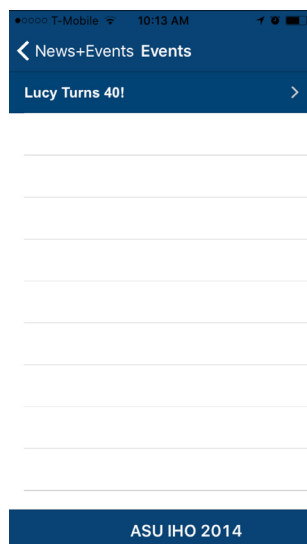

These are links generated from the database. It would be good to have a list of at least 10 items long if possible.

News items should have

1. Title in bold font
2. Image space (need optimal height/width pixels)
3. short descrtion
4. Link button to the news item (This link button is actually too far down—when you are looking at the entry, you don't realize that you can scroll down to click the link.

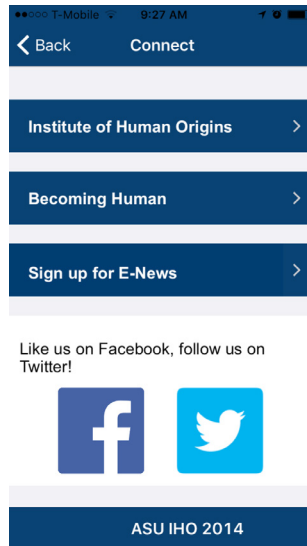

Should be generated from a database entry

Events listing is from a database entry. 10 entries would be good to have.

The **Travel and Learn** page should not change except that the bar that says “Indonesia” right now should say—Read more—and it should link to: <https://iho.asu.edu/outreach/travel>

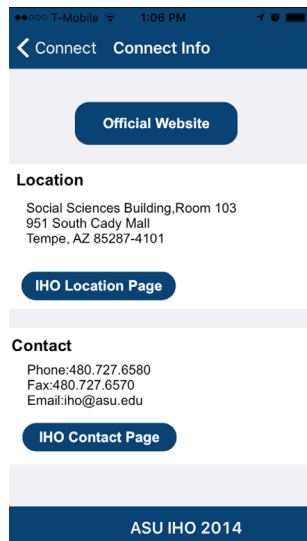

Connect

1. Add—Ask An Anthropologist—bar between the Institute of Human Origins and Becoming Human bars.

2. Add the Instagram logo after the twitter logo. Link it to https://www.instagram.com/human_origins_asu/

3. Change the link on the twitter logo to: <https://twitter.com/HumanOriginsASU>

Make the social media logos smaller and that section smaller if you need to in order to add the additional bar

Connect IHO

1. IHO Location page link should be: <https://iho.asu.edu/contact-us>

2. IHO Contact page link should be <https://iho.asu.edu/contact-us>

New page

The **new AskAnAnthropologist page** should be similar to the Becoming-Human page but with an image at the top and this text:

AskAnAnthropologist— inspired by the “wildly” successful AskABiologist.asu.edu—is a resource where students and teachers can find information about the science of anthropology. Aimed primarily at the middle school level, the articles and activities are challenging and may be used for higher school levels as well.

Link bar should say: Visit AskAnAnthropologist and link to <https://askananthropologist.asu.edu/>

(AskABiologist.asu.edu should be a link— <https://askabiologist.asu.edu>)
Image is “setting_for_science_Header 600.jpg”

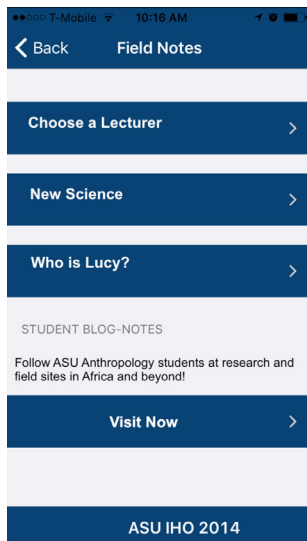

About

1. Replace the logo with a new logo (attached): joint ASU-IHO rgb.jpg

2. Relink the College of Liberal Arts and Sciences to <https://clas.asu.edu>

3. Change the text to add “over”

. . . discovery central to its **over** 30-year-old founding mission, . . .

Field Notes

1. New Science: This should pull from a database of titles that I input along with a link to the article

2. The **Student Blog-Notes** needs to be reworked. Can we fit all this in a bar? Rather than in the background and then on the bar? It is just kind of confusing.

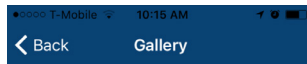

Blog—Notes from the Field

Follow IHO faculty and students at research and field sites around the globe! Visit Now >

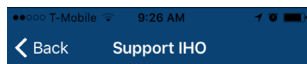

Choose a lecturer: These entries need to draw from a database and I need to be able to add new faculty members and order them according to however I need.

Each faculty member page should have their name in bold, an image, their title etc, a short paragraph (I need to know the number of words/characters i can use). The database should let me add/change the links for the “Learn more”, email address for asking questions, and images for the view gallery section.

To give directly to IHO online through the ASU Foundation:

Invest in ASU

The Institute of Human Origins invites you to share in the excitement of discovery, the pursuit of new knowledge, and the public discussion of the enduring puzzle of how we “became human.” The study of how and where humans developed on Earth has never been more vibrant than today. We are seeking visionary partners to join our mission to advance the science of human origins and explore the ongoing challenges of our field and laboratory research.

An investment in IHO helps to fund student scholarships, support research in laboratories and field sites, and meet the growing needs of our researchers and students. Please help us continue the search!

Please contact IHO at 480.727.6580 for

ASU IHO 2014

Institute of Human Origins Arizona State University

William Kimbel, Director
Julie Russ, Assistant Director
Lindsay Mullen, Program Manager

ASU App Development Team

Krishna Tanmaya Nelapatla-IOS
Barathi Baburaj-Android
Timothy Lindquist, Faculty Advisor

Thanks to the mobile app team

Jennifer Davidson
Kyle Johnson
April Lenard
Harold Ridley

For the **Gallery**, let me know the image pixel size for portrait and landscape images and the optimal length of the text—character/word length.

Support IHO

The Invest in ASU button link should go to:

<https://iho.asu.edu/support-iho>

Credits link at the bottom of the main page: Add all the names of the team members in alphabetical order to the top of the list under ASU App Development Team. The list should read:

**Institute of Human Origins
Arizona State University**
William H. Kimbel, Director
Julie Russ, Assistant Director
Lindsay Mullen, Program Manager

Thank you to IHO-affiliated graduate student Neysa Grider-Potter for the “Lucy” facts.

Special thanks to IHO Executive Board Member Ross Leventhal for supporting this project!
